Fichtel & Sachs***	Ball bearings and 20 pendulum roller bearings	1,200.00
<u>Shipments from the USSR</u>		

3. During this past week, six carloads containing various types of driving engines (Fördermaschinen) and one carload of hole-boring chisels (Bohr-  
bohrmeissel), weighing a total of 6,700 kilograms, arrived from the Soviet Union at the SMV Central Warehouse in Neusiedl.

SMV Sales

4. SEB-Neusiedl has sold used materials (Altmaterial) valued at a total of 25,000 schillings to the SMV Central Warehouse at Neusiedl.
5. The SMV Lobau warehouse has sold six carloads of steel plates to an unidentified firm in Upper Austria through one Otto TRESSLER. \*\*\*\*

SMV Werkschutz

6. The SMV Werkschutz now hires new employees solely upon recommendation from the Central Committee of the Austrian Communist Party and all new employees are obligated to serve in the Werkschutz for a minimum of one year. SMV employees have noticed that Werkschutz employees obviously have military designations which parallel military ranks up to that of a lieutenant. Officers above the rank of lieutenant are not as easily distinguished from the lower ranks as in a military organization. Werkschutz employees receive far more lucrative salaries than the average SMV employee.

SMV Personnel

7. V. G. KASYURA, director of the SMV Purchasing Office, relinquished his position to his successor, KUSIN, and left Vienna for the Soviet Union 10 January 1950. KUSIN has already initiated some changes. Henceforth SMV purchasing agents are to submit a monthly report on the total number of purchases completed during each month, and a daily report giving details regarding the supplier and SMV recipient of current purchases.
